### **DETAILED ACTION**

The disclosure is objected to because of the following informalities: it is replete with non-idiomatic English. It appears to be a literal translation into English from a foreign document and is replete with grammatical and idiomatic errors.

Appropriate correction is required.

#### ***Claim Rejections - 35 USC § 112***

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 4 fail to point out and distinctly claim Applicant's invention, as the claims are in narrative form and there is no structure clearly and positively recited. The claimed circuit is described in terms of voltages and signal components, for example.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-5 (to the extent understood) are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Carobolante et al.

Art Unit: 2837

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kokami et al. and Patton et al. are further cited to show related teachings.
